Summary

Web Developer with a wide skillset and an eye for design. Builds with the customer in mind. Always looking to learn something new.

Experience

Freelance Web Design / Web Dev

JAN 2016 - PRESENT

Adjusted Wordpress styling and framework for a site launch for a gym in Hillsboro. Created a simple Lead generating site for a budding construction company. Helped with Domain name and server set up.

Centerpointe Research Institute / Web Dev and Graphic Designer

NOV 2016 - MAY 2017

Created new landing pages when products went on sale. Expanded Infusion Soft (CRM) functionality with scripting. Helped create member's only section of site and contributed to the introduction of their Membership Program. Created a web app that used an AJAX form and put customer info securely in a MySQL database.

OCP.org / Front End Dev

MAY 2016 - SEP 2016

Created responsive pages for a large ecommerce site at a fast pace. Used SCSS for styling. Did extensive responsive and cross browser testing. Collaborated with graphic design and back end dev team. Used Git for version control.

Johnson Creek Watershed Council / Wordpress Developer

JAN 2016 - MAY 2016

Redesigned entire Wordpress site with a new theme. Made site responsive. Made site 80% smaller. Redesigned for better UX and to fit branding. Migrated to and from testing server without any loss of data.
